

Hello Guest,

Welcome to Paperdaz, a unique web application that allows users to complete any document by selecting a variable on the right and applying it anywhere on any PDF document like this one.

Let’s try it out, look to the right of this page you a will see variables.

Click on Text, place on the line below, and type “This is a cool App”

\_\_\_\_\_

Select **Dot** and place it on the circle number 7, then select the **X** and put it on circle number 1.

7

8

9

Select the **Check Mark**, then place it in all the yellow box.

Click on the **Initial variable**, then apply it to the end of this sentence.

Click on the **Highlight** variable and apply to the word Hello Guest, on the top of this document.

Click on **Name**, Signature and Date on the right and apply where it belongs below:

\_\_\_\_\_

Name

\_\_\_\_\_

Signature

\_\_\_\_\_

Date

Now click on **Save & Complete** on the top left, and you will get a copy. Thank you for being our guest!
